INTRODUCTION

Welcome to Adamawa State, a vibrant hub of innovation and digital progress in Nigeria. At the forefront of this transformation is the Office of the Special Adviser ICTs, E-governance, and Policy, under the Supervision and Guidance of the Secretary to the State Government is dedicated to spearheading initiatives that harness the power of Information and Communication Technology (ICT) and E-Government for the benefit of our citizens.

In today's interconnected world, leveraging digital technologies is paramount for driving socio-economic development and enhancing governance efficiency. Adamawa State recognizes this imperative and has embarked on a journey of digital transformation with a clear vision encapsulated in the Adamawa 2.0 Digital Transformation Agenda.

This brochure serves as a testament to the remarkable strides made by Adamawa State in the realm of ICT, E-governance, and Policy. From the formulation of robust policy frameworks to the implementation of innovative initiatives, Adamawa State is committed to embracing the opportunities afforded by the digital age.
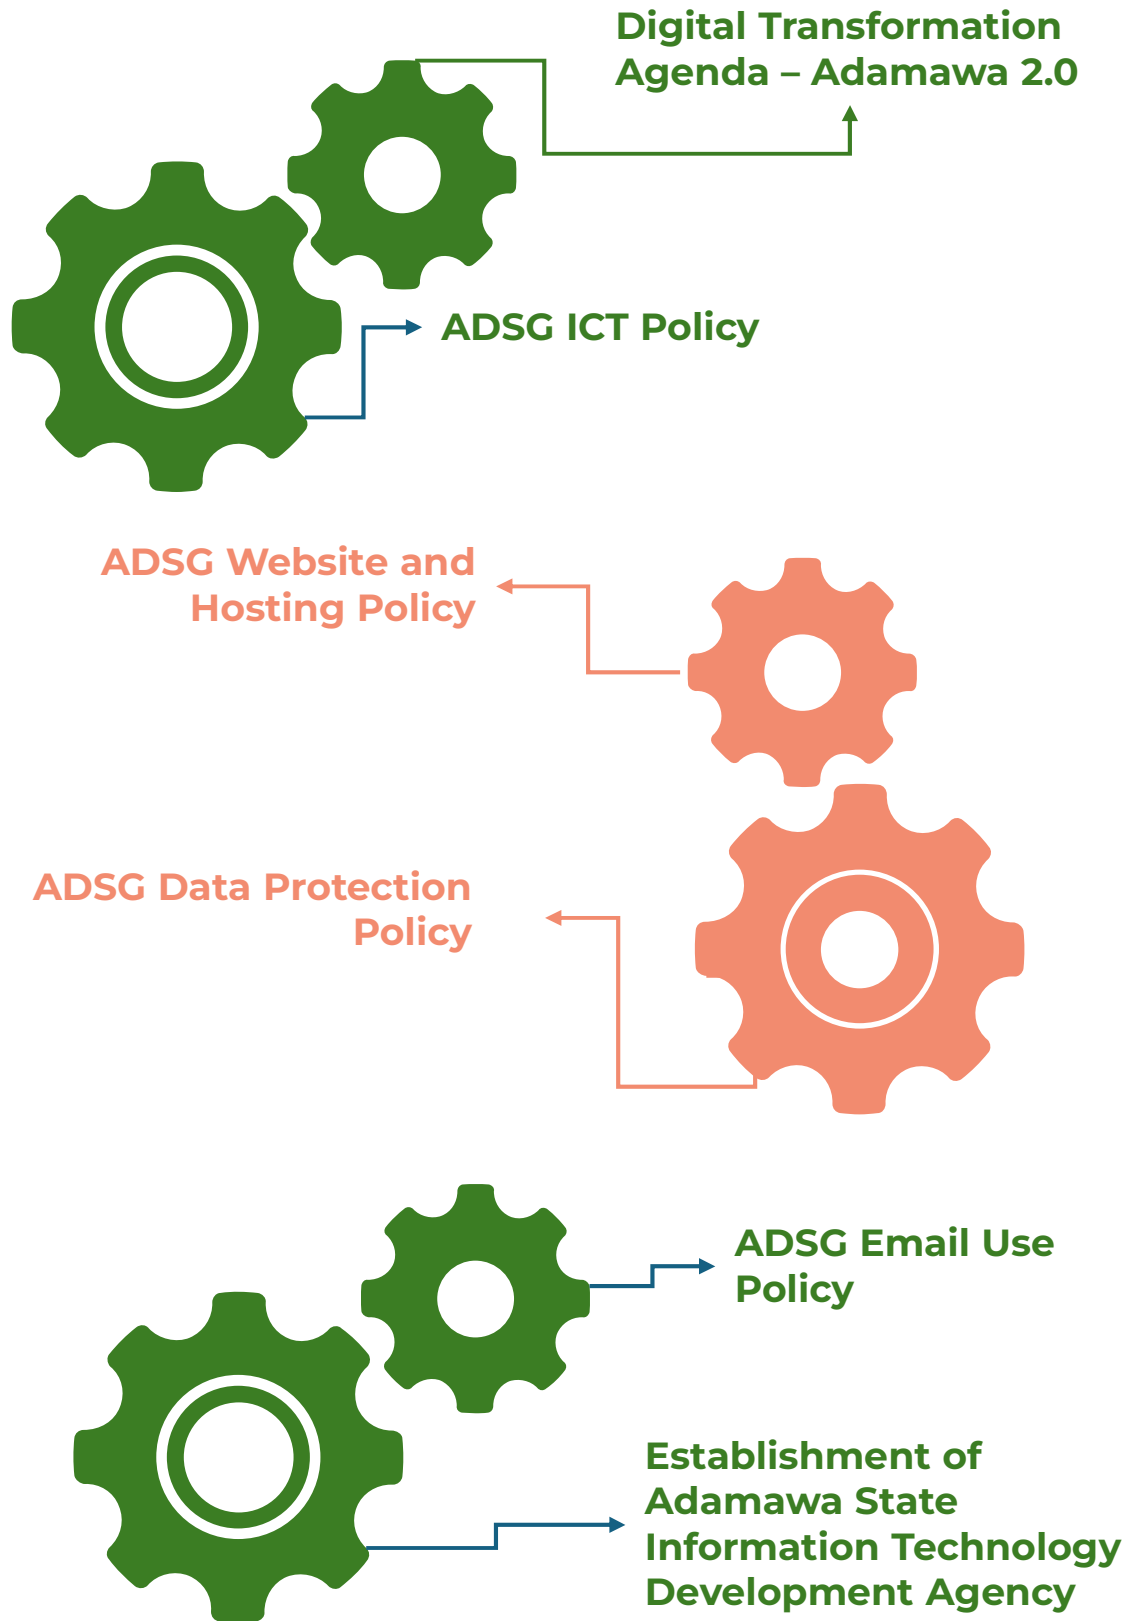

Join us as we explore the milestones achieved, the initiatives undertaken, and the vision for the future of ICT, E-governance, and Policy in Adamawa State. Together, we are shaping a more connected, inclusive, and prosperous future for all.

Digital Transformation and Governance Achievements

Adamawa State has made significant strides in embracing digital transformation and enhancing governance through innovative ICT and E-Government initiatives. These achievements reflect a comprehensive approach aimed at leveraging technology to improve service delivery, foster transparency, and empower citizens. Here are some key highlights:

Digital Transformation and Governance Achievements

Digital Transformation Agenda – Adamawa 2.0

ADSG ICT Policy

ADSG Website and Hosting Policy

ADSG Data Protection Policy

ADSG Email Use Policy

Establishment of Adamawa State Information Technology Development Agency

1   **Digital Transformation Agenda – Adamawa 2.0:** This strategic vision outlines our commitment to harnessing digital technologies for overall development. Presented to the ADSG ICT Working Group stage for a future where technology drives progress and prosperity.

2   **ADSG ICT Policy:** Providing a robust framework for the use and management of ICT resources within the state, the ADSG ICT Policy ensures the effective utilization of technology to enhance governance and service delivery. Presented to the ADSG ICT Working Group and published on the Government Website, this policy lays the foundation for a digital-first approach to governance.

3   **ADSG Website and Hosting Policy:** With clear guidelines for the development and hosting of official websites on adamawastate.gov.ng and related platforms, this policy promotes consistency, security, and accessibility in online government services. Published on the Government Website, it reinforces our commitment to digital excellence.

4   **ADSG Data Protection Policy:** Ensuring the security and privacy of data handled by the state, this policy safeguards sensitive information and builds trust with citizens. Published on the Government Website, it reflects our proactive approach to cybersecurity and data management.

5   **ADSG Email Use Policy:** Setting standards for secure and efficient email communication within government entities, this policy enhances collaboration and information exchange while mitigating risks. Published on the Government Website, it promotes professionalism and reliability in digital communications.

6   **Establishment of ASITDA:** Demonstrating our commitment to fostering IT development and innovation, the establishment of this agency heralds a new era of technological advancement in Adamawa State. Approved by HE Ahmadu Umaru Fintiri and forwarded to the State House of Assembly, this initiative is poised to drive digital growth and prosperity.

These achievements underscore our dedication to embracing digital transformation as a catalyst for positive change. As we continue on this journey, Adamawa State remains steadfast in its pursuit of excellence and innovation in ICT, E-governance, and Policy.

E-Governance Initiatives

Adamawa State has implemented a range of E-Governance initiatives aimed at enhancing transparency, efficiency, and accessibility in governance. These initiatives reflect our commitment to leveraging technology to better serve our citizens and improve the overall governance landscape. Here are some key highlights:

1

E-Governance Policy and Increased Web Presence

Our E-Governance Policy embodies a multi-faceted approach to digital governance, facilitating the establishment of official portals for various government ministries and agencies. Through these portals, citizens can access information, services, and engage with government entities conveniently and transparently.
